FOR THE ASSOCIATE COMMISSIONER,
EXAMINATIONS

Terrance M. O'Reilly, Director
Administrative Appeals Office

DISCUSSION: The nonimmigrant visa petition was denied by the Director, California Service Center, and is now before the Associate Commissioner for Examinations on appeal. The appeal will be dismissed.

The petitioner engages in the business of milling rice. It seeks classification of the beneficiary as a trainee for 11 months. The director determined that the petitioner's training program deals in generalities with no fixed schedule, objectives, or means of evaluation. The director also determined that the petitioner did not establish that the proposed training is significantly different from prior training received by the beneficiary. Further, the director decided that the petitioner had not established that the training is not available in the beneficiary's home country. Further, the director decided that the petitioner has not shown that it is a legitimate business entity with resources and knowledge to administer a training program.

On appeal, the petitioner states that the beneficiary is able to obtain the requested documentation.

Section 101(a)(15)(H)(iii) of the Immigration and Nationality Act (the Act), 8 U.S.C. 1101(a)(15)(H)(iii), provides classification to an alien having a residence in a foreign country which he or she has no intention of abandoning who is coming temporarily to the United States as a trainee, other than to receive graduate medical education or training, in a training program that is not designed primarily to provide productive employment.

The regulation at 8 C.F.R. 214.2(h)(7) states, in pertinent part:

(ii) *Evidence required for petition involving alien trainee--*(A) *Conditions.* The petitioner is required to demonstrate that:

(1) The proposed training is not available in the alien's own country;

(2) The beneficiary will not be placed in a position which is in the normal operation of the business and in which citizens and resident workers are regularly employed;

(3) The beneficiary will not engage in productive employment unless such employment is incidental and necessary to the training; and

(4) The training will benefit the beneficiary in pursuing a career outside the United States.

(B) *Description of training program.* Each petition for a trainee must include a statement which:

(1) Describes the type of training and supervision to be given, and the structure of the training program;

(2) Sets forth the proportion of time that will be devoted to productive employment;

(3) Shows the number of hours that will be spent, respectively, in classroom instruction and in on-the-job training;

(4) Describes the career abroad for which the training will prepare the alien;

(5) Indicates the reasons why such training cannot be obtained in the alien's country and why it is necessary for the alien to be trained in the United States; and

(6) Indicates the source of any remuneration received by the trainee and any benefit which will accrue to the petitioner for providing the training.

(iii) *Restrictions on training program for alien trainee.* A training program may not be approved which:

(A) Deals in generalities with no fixed schedule, objectives, or means of evaluation;

(B) Is incompatible with the nature of the petitioner's business or enterprise;

(C) Is on behalf of a beneficiary who already possesses substantial training and expertise in the proposed field of training;

(D) Is in a field in which it is unlikely that the knowledge or skill will be used outside the United States;

(E) Will result in productive employment beyond that which is incidental and necessary to the training;

(F) Is designed to recruit and train aliens for the ultimate staffing of domestic operations in the United States;

(G) Does not establish that the petitioner has the physical plant and sufficiently trained manpower to provide the training specified; or

(H) Is designed to extend the total allowable period of practical training previously authorized a nonimmigrant student.

The beneficiary will learn the structure of the U.S. rice industry and the U.S. feedgrain industry. The nontechnical description of the job is as follows: "trainee." A training program may not be approved which has no fixed schedule, objectives, or means of evaluation. The petitioner must submit a full description of the training program in accordance with the aforementioned regulations.

The petitioner has not shown that the proposed training is not available in the beneficiary's own country. The beneficiary may not be classified as a nonimmigrant trainee, in the absence of a showing that the training is not available in his or her own country and that the purported training is not essentially experience in repetition, review, and practical application of skills. See Matter of Frigon, 18 I&N Dec. 164 (Comm. 1981). No evidence has been presented that such training does not exist in the beneficiary's home country.

The petitioner has not provided evidence to show that the beneficiary does not already possess substantial training and expertise in the rice industry. The petition indicates that the beneficiary already has skills related to the training.

Further, a training program cannot be approved when it does not establish that the petitioner has the physical plant and sufficiently trained manpower to provide the training specified. The petition indicates that the petitioner currently employs 12 individuals. Absent the petitioner's personnel structure, this Service is unable to determine whether the petitioner's staff is qualified and available to train the beneficiary.

This petition cannot be approved for another reason. The petitioner has not shown that the beneficiary will not be engaged in productive employment beyond that necessary and incidental to the training.

In nonimmigrant visa petition proceedings, the burden of proving eligibility for the benefit sought remains entirely with the petitioner. Section 291 of the Act, 8 U.S.C. 1361. The petitioner has not met that burden.

ORDER: The appeal is dismissed.
